What is time? The 5th-century philosopher St Augustine famously said that he knew what time was, so long as no one asked him. Introducing Time tackles this question and dares to go where augustine would not. It traces the history of time from augustine to the flowing time of Newton, the 'conventional time' of Poincaré, Einstein's static time, and then to the idea that there is no time ...

The title of the book is misleading. It should be called "Introducing the History of Quantum Theory: A Guide". It does very little in explaining Quantum Theory, but it does a pretty good job at explaining who came up with it. The "graphic" part is almost entirely superfluous, but does have some nice cartoon drawings of people like Rutherford.
