My opinion, If I was to  
get a Td5 D2, it would  
definitely be auto. I  
would also try and get  
something after 2001,  
as the auto's can deal

with more torque/  
chipping etc. '03  
onwards is the go,  
better auto trans  
software, able to take  
more torque(400+Nm)  
without limp mode,  
and a much nicer shift  
pattern/ feel.

In either manual or auto Discovery 2, the harness is there for the clutch switch. An "auto" ECU (engine computer in engine bay) works fine in a manual Discovery 2. A manual Discovery 2 doesnt have the added harness for the auto ECU (auto computer under the passenger side seat).
