Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge.

### **Flesh A Deadly Creature Hunts**

In *Flesh*, Richard Laymon writes a chilling tale of danger, infestation and death. Perfect for fans of Stephen King and Joe Hill. 'Fast-paced, weird, gruesome fun in the unique Laymon style' - Dean Koontz. Something deadly has come to town - a slimy, slithering... thing like nothing anyone has seen before. With its dull eyes and its hideous mouth, it's always hunting for a new host to burrow into, and humans are the perfect pray.

A Wendigo's appetite could never be filled. It would attack other men and eat their flesh, but every bite would just make them larger and hungrier, until they were massive, flesh-starved giants towering over the trees. These missionaries, the Algonquin tribe insisted, had turned into Wendigos and started killing their fellow men.

### **11 Mythological Creatures That Reveal Humanity's Deepest Fears**

Definition: a cannibalistic creature of Algonquian mythology believed to have been a lost hunter forced by hunger to eat human flesh and thereafter to have become a crazed man-eating ogre roaming the forest

### **15 of the Creepiest Ghosts, Creatures, and Monsters ...**

The Penobscot Nation reports that the big, shaggy mammal had a habit of leaning on trees to rest; because it was unable to bend its legs, Katshituashku wouldn't ever be able to stand up again

The terrifying Aswang is the most feared creature of Philippine folklore—and with good reason. Stalking its prey in the small, rural towns of the Philippines, this deadly monster nocturnally hunts for a meal of human flesh and blood. What is an Aswang? The Aswang (æ·swang) is a flesh-eating, shapeshifting monster. During the day, Aswangs appear as regular townspeople, though they may be observed by others to have reclusive

Alligators/Crocodiles -. Measuring over 15ft and weighing half a ton, these ruthless water-dwellers are tenacious in their hunt for flesh. Boasting a toothy clamp strong enough to crush the bones of its prey, alligators use their brute force to render their prey useless, before moving in for the kill.

## **Deadliest animals in USA - AmeriCamp**

The animals that eat them are called carnivores, which are armed with different “weapon” to catch their prey. Some animals (such as human beings) use their intelligence to trick their victims. Others resort to more aggressive means, such as claws or poison, to hunt effectively. No matter what, all of these animals manage to make their kill.

## **The 5 Most Lethal Animals - My Animals**

Joe Cornish's 2011 *Attack the Block* exists in a few genres as a science-fiction horror comedy, but still features some deadly alien creatures that aren't really given a name in the film, beyond "gorilla-wolf motherf\*\*ers." It's an apt description of the creatures, as they share similar aspects of the two dangerous Earth-born creatures- with a twist.

## **10 Deadliest Sci-Fi Movie Monsters, Ranked | ScreenRant**

Known for its eerie laughter, this is one savage scavenger. It mainly feasts on dead carcasses but will hunt prey if hungry enough. Even more worryingly it can get a taste for human flesh at times if corpses are left out, unburied. When this has happened, it has been known to hunt humans and take them for food.

For decades, Hollywood blockbusters have portrayed sharks as toothy killing machines with a taste for human flesh. But shark attacks, and fatalities, in particular, are probably much rarer than you...

### **Animals That Are Less Dangerous Than You Think | Reader's ...**

Surprise! Humans are the most dangerous animals in the world. We kill more other humans than all the other animals on this list combined. We pollute the environment, we overuse resources, we wage wars with guns and other weapons, and we eat and kill many animals that would be threats to us. We are the worst!
