This is a good book to read before publishing your first paper (or writing your first thesis if you are unsure of what to write). Some more technical details and writings suggestions. You don't have to do everything the books discusses, and it may not go the way the authors describe, but still a good read to get an idea of what the publishing process looks like.

With the publication of Save and Grow in 2011, FAO proposed a new paradigm of intensive crop production, one that is both highly productive and environmentally sustainable. FAO recognized that, over the past half-century, agriculture based on the intensive use of inputs has increased global food production and average per capita food consumption.
