ISO's food safety management standards help organizations identify and control food safety hazards, at the same time as working together with other ISO management standards, such as ISO 9001. Applicable to all types of producer, ISO 22000 provides a layer of reassurance within the global food supply chain, helping products cross borders and bringing people food that they can trust.

### ISO - ISO 22000 — Food safety management

The management company often pays a specific lease and a percentage of the food sales to the building's owner, while taking on the operational control of preparing, serving and marketing the food. These sorts of management contracts can sometimes be used in the private sector as well, with large corporations often having a management company take charge of feeding the employees, so to speak.
