Diesel Fuel Injection and other Services - Simms Diesel

Frederick Simms was a founder of the British motor industry and first imported Daimler engines to the UK in 1890. He founded the RAC automobile club in 1897 and went on to manufacture magnetos for use in the automobile industry. Before the second world war he was making injector nozzles for diesel engines and due to wartime contracts expanded rapidly in the following years. In 1968 Lucas CAV ...

Injection Pump - Simms Inline Diesel Parts | Oregon Fuel ...

Today's diesel fuel injection pumps are under pressure – even more pressure than what was once considered “normal.” Around 15-20 years ago, it was common for fuel injector pumps to process fuel in a system at around 10,000 to 15,000 psi (pounds per square inch). But that's only about half of what engines are expected to do today.
