Overview: The 72147-THR-A01 is a remote key fob, also known as a smart key, Proxy, intelligent key or "push to start". It is mostly used for Honda models made AFTER 2017. It is used for different models and different years. In addition, the 72147-THR-A01 signals the car (via radio frequency) that the key is nearby so the owner only has to push the start button to start the engine.
